Air Freight services

Air Freight Forwarding

We offer smart solutions for small and large shipments in air freight service. Consolidation of pick-up and delivery, packing and crating, complete export and import documentation and customer service are just some of our value added services in Air Freight Forwarding.

Cargo Aircraft Charter

Arranging cargo aircraft charter base on customers need and support all necessary related services. Chose your cargo aircraft mode and fly from any airport of your choice. Our experts will assist your requests gently and professionally.

Fully dedicated staffs keep long-standing relationships with a variety of reliable carriers and partners over the globe that enabling us to fulfill all your requirements.

Advantages Of Our Network Operations are:

1. Worldwide coverage
2. Fast and Efficient Services
3. All General and Specialized Cargo Services
4. Special Customer Rate
5. Live tracking system

OCEAN Freight Forwarding

INTEX offers services in the field of Full Container Load (FCL) and Less-than-Container Load (LCL) consolidated consignments including plant transports, perishable transports, rail transport, intermodal transports, international sea freight, customs clearance and warehouse logistics.

PACKING & Labeling

We undertake any type of packing and for which we have a reputable company with experienced staff and adequate materials such as crating and labeling. Complete and professional range of packing the goods.

Edges, corners and frames are packed first, and then the whole item is packed again, minimizing the damage risks during handling and transit. Glass products, mirrors and furniture with glass or mirrors, are reinforced with plywood before packing. All the wooden frames and crates are special designed, for minimizing the possible damages during the transportation and for an ergonomic way of loading the carrier.

WAREHOUSING

A fully automated warehouse for consolidating and holding shipments and bulk goods, short and long term under the care of a logistics control and inventory management team. Storage facilities, in dry, clean and save environment.

The warehouse is divided in bay areas of 20ft and 40ft, giving a more clear visual idea about the current volumes for filling in a container.

All the received goods are recorded onto a "client master packing list", what includes the package or box number, description, packer code and the storage bay area. This list will be used to cross check the container loading, ensuring that none of your goods are left behind or mixed with other clients.

TRANSPORTATION

Arranging pick up and delivery of goods to/from anywhere of your shipment required. Our delivery teams have the ability to handle all types of goods and are aware of the safety and importance that are in order of loading and unloading conditions.

CUSTOMER SERVICE

Our team is comprised of individuals from a wide variety of backgrounds, including management, shipment, and transportation. From our sales team, management, packing & delivery team to customer relation officers our focus is on delivering a high quality service and customer satisfaction.
